

Control cables
G10 insulated, LSZH, SWB, LSZH outer sheath

Type

G10/LSZH/SWB/LSZH 0,6/1 Kv
FG10OM1AM1 0,6/1 Kv

Conductor

Stranded red copper conductor according to IEC60228 cl. 5

Insulation

Cross-linked compound G10, CEI20-14

- Temperature range -60 + 90°C

- Temperature laying -5 + 90°C

Laying up

Multicore are twisted together

Multipair/triple, core are twisted to pairs or triples; Pairs and triples are twisted in concentric layers

Inner sheath

LSZH compound according to CEI20-38

Armour

Galvanized steel braid wire D. 0,30

Outer sheath

LSZH compound according to CEI20-38 Colour black

Performance

Flame retardant according to CEI20-22 II

According to CEI20-37, CEI20-38

Minimum bending radius

10 times overall diameter
